Industry Experience

Senior Economic Consultant, *London Economics*

Sep 2018–Sep 2023

- Focused on a variety of competition and education related projects, undertaking literature reviews, developing economic frameworks and econometric specifications, and sourcing and analysing data.
- Project managed six projects in the education team and two projects in the competition team.
- Mentoring experience covering analysts and interns.
- Managed the new starter Stata training program.
- Responsible for interviewing new hires.
- Competition work has involved an evaluation of the European Commission’s Market Definition framework, an econometric analysis of large-volume pricing data to evaluate cartel damages, development of an econometric framework as an input to an evaluation of the EC’s Vertical Block Exemption Regulation (VBER) and investigating harm in a Hong Kong telecom merger.
- Education work included several large-scale data analysis and matching projects, developing the Longitudinal Educational Outcomes database, through the matching of a number of governmental databases including the Individual Learner Record, HESA and HMRC data.

Economic Researcher Intern, *National Institute for Economic and Social Research* Jul–Aug 2017

- Worked on quantitative research in interest rates to understand the UK’s productivity and investment puzzle (with the Director of the Institute, Prof. Jagjit Chadha)
- Performed econometric analysis of UK data in Stata and developed an econometric framework to investigate the lack of investment in the UK.
- Edited and contributed to quarterly journal exploring under-investment in the UK economy.

Economic Analyst Intern, *Frontier Economics*

Jul–Aug 2016

- Worked in Competition practice evaluating an antitrust case against a UK mobility scooter manufacturer.
- Undertook a literature review of anti-competitive harms, using a novel technique to explore unseen pricing data to assess size of damages and analysing this data in Stata.

Numeracy Learning Support Assistant, *The Barclay School, Stevenage*

Sep 2013–Jun 2014

- Provided support to Special Educational Needs students in mathematics, working with students from year 7 to GCSE students, tutoring numeracy skills and exam preparation.

Languages: English (native), French (B2)

IT / programming: Stata (advanced), Microsoft Office (advanced), R (intermediate), PHP (intermediate), HTML (advanced), CSS (intermediate), Javascript (intermediate)
